

# AS2118 Suppression Mode and Special Sprinklers

Morning Workshop

**QLD** 2 June  
**TAS** 5 June

**NSW** 3 June  
**VIC** 10 June

**SA** 4 June

Fire Protection Association Australia presents

## An update on suppression modes and special sprinkler technology, combined with workshop discussions

### The Presentations

Leading industry experts will provide an update on fire suppression mode sprinkler systems and the latest in sprinkler technology, with a focus on special sprinklers and their applications.

The morning will conclude with a brief overview on the future direction of AS2118 and sprinkler systems.

### The Workshop

In addition to the presentations, attendees will be given time to discuss these and other topics surrounding AS2118. Both the 1999 and 2006 versions of the standard will be discussed in addition to the ABCB's position.

A panel comprising industry experts will be available to address your questions (see over for a full list of speakers). To ensure your question is discussed, send it to [events@fpaa.com.au](mailto:events@fpaa.com.au) prior to the workshops.

**Free book to all registrants: Fire – A century of automatic sprinkler protection**

2009

# AS2118 Suppression Mode and Special Sprinklers
