

## All NEW FM Data Sheets 2-0 and 8-9

### Installation Rules and Storage Sprinkler Design

Morning Seminar

**QLD** 12 May

**WA** 19 May

**NSW** 13 May

**SA** 20 May

**TAS** 14 May

**VIC** 21 May

Fire Protection Association Australia presents

**FM Global Data Sheets 2-2, 2-7 and 2-8N have been replaced by a completely new data sheet 2-0 (Installation Guidelines for Automatic Sprinklers). Data Sheet 8-9 Storage Sprinkler Design has also been updated and streamlined.**

### The Presentation

This morning workshop will cover in detail the revision of the pre-existing automatic sprinkler installation guidelines into the current DS 2-0, together with the associated changes in DS 8-9, both of which introduce a whole new concept in the design of Sprinkler Protection.

Both data sheets were released at the end of March 2010 and represent state of the art in fire protection research and technology, which in many cases will be more cost effective than the previous Data Sheets.
