

FPA Australia will host five half day seminars around Australia to provide the industry with vital information about risk, insurance and the new WHS laws.

Having business insurance does not mean you are 100% covered from litigation. Only by mitigating risk and obtaining the relevant coverage can you avoid losses to your business and potential criminal prosecution should the unexpected happen.

This half day seminar will highlight the leading issues facing our industry from an insurance, legal and risk perspective.

## THE SEMINAR

A high percentage of businesses within the fire protection industry are currently exposed to potential legal action despite believing they have adequate insurance coverage. Many considerations are factored into a legal claim and the impact on you and your business can be devastating.

This half day seminar will highlight the leading issues facing our industry from an insurance, legal and risk perspective. Notary speakers will offer insight into the pitfalls and misconceptions surrounding claims, contracts and insurance. In addition a special presentation will highlight the new Workplace Health & Safety laws.

Over five hours you will be presented with invaluable information pertaining to the problems our industry faces concerning insurance claims, contract development and inheritance. To complete the seminar an overview of risk management will help you plan and avoid many of these problems.

Alan Wilson Insurance Brokers are heavily involved with insuring the Fire Protection industry. He will provide startling statistics on claims and outcomes, followed by sound advice on how to avoid them.

Lovegrove Solicitors is a law firm synonymous with Fire Protection cases and will offer their legal perspective on insurance and your obligations as the contracted supplier. To round out these two speakers a local representative will give a perspective on regulation and legal requirements.

Finally, Scott Williams will provide an update on the Public and Product Liability and Professional Indemnity requirements from FPA Australia.

### Who Should Attend?

Those that will benefit from attending these seminars include, but are not limited to:

- Maintenance Contractors
- Managers & Senior personnel
- Building Owners
