I certify that all statements made on this form are correct to the best of my knowledge.

<input type="text"/>	Date:
Signature of Applicant	

## Payment Details - Application Fee **MUST** be included

Licence Fee: \$100.00

DO NOT SEND CASH

Method of Payment - Please tick (payable to Fire Protection Association Australia)

Cheque  Money Order  VISA  Mastercard

### Credit Card Details Only

Credit Card No.:	<input type="text"/>
Cardholder's Name:	Expiry Date:
<input type="text"/>	
Cardholder's Signature	Amount \$:
	<input type="text"/>

An Extinguishing Agent Trainee Licence is awarded by the Fire Protection Industry (ODS&SGG) Board to individuals who are currently working in the fire protection industry under the supervision of the holder of an Extinguishing Agent Handling Licence (EAHL).

**A Trainee Licence is therefore only valid while working under this supervision.**

The following table details the six licence categories and their entitlements. Please add the name and licence number of each supervisor for each licence area you are intending to work in. However, note that you may work in any areas, provided you are under the supervision of a person with the appropriate EAHL.

Should your supervisor change it is your responsibility to ensure that you are still working under the supervision of a licensed person.

Licence Item	Entitlements	Supervisors name & licence number. (only include supervisors for those areas you propose to work in)
<b>Portable Fire Extinguisher Maintenance Licence</b>	To charge and recharge a portable fire extinguisher, and repair the extinguisher valve.	Name: ..... EAHL Number: .....
<b>Fixed System Installation and Decommissioning Licence</b>	1) To install and decommission a gaseous fire extinguishing system (fire protection equipment) including: <ul style="list-style-type: none"> <li>(a) to install and disconnect actuation devices (mechanisms) to and from container valves; and</li> <li>(b) to install and disconnect gaseous agent containers; and</li> <li>(c) to install and disconnect any interconnections to other gaseous system containers; and</li> <li>(d) to install and disconnect ancillary equipment connections to manifold and pipework; and</li> <li>(e) to attach and remove transport equipment, such as valve outlet and actuator port caps, plugs and locking devices installed to prevent accidental discharge</li> </ul> 2) Commission actuation control devices set to operate and engage safety devices as needed and decommission these devices	Name: ..... EAHL Number: .....
<b>Fixed System Testing and Maintenance Licence</b>	To test and maintain a gaseous fire extinguishing system (fire protection equipment), including: <ul style="list-style-type: none"> <li>(a) to test actuation release systems; and</li> <li>(b) to disconnect and reconnect actuation devices (mechanisms); and</li> <li>(c) to disconnect and reconnect any interconnections to other gaseous systems containers; and</li> <li>(d) to disconnect and reconnect ancillary equipment connections from containers to manifold and pipework; and</li> <li>(e) to test actuation devices (mechanisms); and</li> <li>(f) to perform any tests and maintenance on any Fire Detection and Alarm System, including any remote operation panel and actuation and control system that interfaces with or forms part of a gaseous fire extinguishing system; and</li> <li>(g) to perform any tests and maintenance on gaseous agent containers and ancillary equipment connections from containers to manifold and pipework</li> </ul>	Name: ..... EAHL Number: .....

Licence Item	Entitlements	Supervisors name & licence number. (only include supervisors for those areas you propose to work in)
<b>Recovery, Reclamation, Fill and Recycling Licence</b>	To recover, reclaim, fill and recycle an extinguishing agent into and from a fire extinguisher and gaseous fire extinguishing system container from and to a bulk agent container	Name: ..... EAHL Number: .....
<b>Warehouse Maintenance Licence</b>	To monitor for leakage stocks of extinguishing agent bulk agent containers in a warehouse and, as needed, to transfer the extinguishing agent from a leaking storage container	Name: ..... EAHL Number: .....
<b>Control Systems Installation, Commissioning and Decommissioning Licence</b>	To install, commission and decommission a fire detection and alarm system, including any remote operation panel and actuation and control system that interfaces with or forms part of a gaseous fire extinguishing system	Name: ..... EAHL Number: .....

Once a Trainee Licence is issued you must obtain the competency PRMPFES43A – Prevent ozone depleting substance and synthetic greenhouse gas emissions. You should obtain this competency within 3 months from the date of the trainee licence. Also, if you do not obtain the competency your trainee licence will not be renewed.

Information on how to obtain this competency and a copy of the learning materials will be sent to you along with your licence.

**Before returning this application:**

- **Complete the attached table identifying your supervisor(s)**
- **Attach a passport size photo of yourself to be included on your Licence.**
- **Payment of \$100**

**Please complete and return form to:**

Executive Officer - Ozone Protection
